

Awareness Pin

Beginner Beading Workshop

Saturday, May 4 10am-4:30pm

The beginner beading workshop will start with a review of the tools needed to start a beading project. (Bead kit)

Next, a demonstration of beading around a cabochon using the 'one needle flat stitch' method.

When two or three rows have been completed around the cabochon, a backing with a pin will be added. This requires drying time, after which edging can be added to complete the awareness pin.

This workshop will take approximately 6 hours.

Cost: \$40. Call the office 905-623-7361, limited spaces available.

Janet Dugan from Changing Sky Designs will guide us.
